

Epilepsy Foundation of Massachusetts and Rhode Island

WALK

TO

H O P E

Saturday, September 6, 2008

**Slater Memorial Park
Pawtucket, RI**

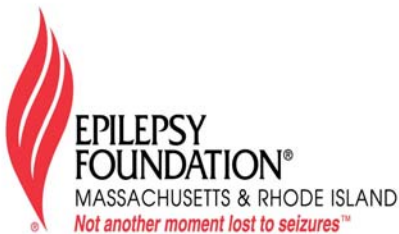

**Registration begins at 10am
Walk begins at 11**

The 2nd Annual 5K Walk will be filled with live entertainment, great food, prizes, and fun and games for kids of all ages. The Walk helps support Epilepsy Education, Research, Advocacy and Support Programs through the year in Rhode Island.

Epilepsy: More Common Than You Think__

- More than 3 million Americans have been diagnosed with epilepsy.
- Epilepsy is the third most common neurological disorder in the United States.
- Epilepsy is more prevalent than Parkinson's, M.S. and ALS combined.
- In RI alone there are over 18,000 individuals living with epilepsy.

Our mission is to ensure that people with seizures are able to participate in all life experiences and to work toward prevention, control, and a cure for epilepsy through advocacy, education, research, and supporting services.
